

Shepherd Ark Kennels

Health Guarantee

I have received a copy of the NYS Article 35-D relating to the sale of cats and dogs. _____

Following the required terms stated in NYS Article 35-D Sale of Cat and Dog notice, a two (2) year hip and genetic warranty from Shepherd Ark Kennels will go into effect. If by two (2) years of age this canine is diagnosed with severe hip dysplasia and proof is provided by a licensed veterinarian, a full refund for the purchase price of the canine will be issued.

Proof of hip dysplasia must include a copy of the radiograph and a letter signed by a licensed veterinarian with name, address and phone number. Shepherd Ark Kennels reserves the right to have the radiograph viewed by our veterinarian and /or any other attending veterinarian. If it is declared by more than one (1) licensed veterinarian that the canine does not have severe hip dysplasia, then a refund and/or replacement will not be issued. A signed certificate will be supplied to the buyer and their veterinarian of our findings.

In the event this canine suddenly dies before two (2) years of age, a necropsy will need to be performed by a licensed veterinarian and a copy of the results sent to Shepherd Ark Kennels to be reviewed by our veterinarian. If the death is found to be caused by a genetic defect, then a refund of the purchase price of the canine will be issued.
